Dear Mr. van Aelstyn,

Re: Public Records Act Request – Yosemite Slough

California State Parks (CSP) has located additional documents responsive to your January 5, 2012 Public Records Act (PRA) request. Thank you for your patience while CSP furthered its search.

Enclosed with this letter are electronic copies of responsive records:

- Transmittal letter from Top Grade Construction, dated February 23, 2012 (1 page); and
- Final soil reuse tables and associated plans (257 pages).

The California PRA provides that CSP shall provide copies of documents upon payment of fees covering the direct costs of duplication. As such, DPR does not provide copies of any documents until receipt of the proper fee. However, based on the fact that the documents responsive to your request are available in electronic format, CSP waives the direct costs of duplication for this request. However, CSP reserves its right to collect the direct costs of duplication for future PRA requests regardless of the volume of records responsive to the request.

If you have any questions, I can be reached at (916) 651-8772.

Sincerely,

Kelli McDowell
